1. The Theater IG, General Rickard, is conducting a discreet investigation at the request of General Clay. Although not informed of the details of the investigation, I learned from Philp that R. asked him to find out what details he could concerning the three subjects and the nature of the connection with Bill Hollisman and Lieut Graml (killed in accident in 1946).

2. Philp mentioned that the three persons involved were cited as having carried phoney British currency produced during the Hitler regime into Belgim for conversion into good money. Also that LENZ is a Munich Banker.

3. CDV: What do we have in the files?

PNK: Do you think we should check with G. before releasing any of the details on our connection with these characters? This can probably be best answered by seeing what a glance through the files turns up.

4. P. wants an answer on this by Friday morning.
